

What is “guaranteed issue”?

Guaranteed issue coverage means employees can get worksite insurance coverage regardless of their answers to medical questions.

Who can get guaranteed issue coverage?

Illinois Mutual is proud to offer guaranteed issue options for small groups with as few as 3 employees, up to 250 or more!

Guaranteed issue options in the industry are often available for businesses with 500+ employees, because they more easily meet the minimum group size requirements of many carriers. However, small business owners can find it difficult to qualify for guaranteed issue.

Contact me today and learn how you can offer worksite voluntary benefits at no direct cost to your business!
