

Use this rider to **BOOST** your worksite sales

when approaching a re-enrollment group!

The Wellness Benefit Rider helps clients to be proactive with their health by paying a benefit amount to help pay for the cost of one health screening test each year for one covered person. However, clients who have a wellness benefit rider on their accident insurance policy often neglect to take advantage of it.

Sales Strategy

Before a group's re-enrollment, our team can run a wellness benefit not filed report!

This report shows which clients in the group can still claim their wellness benefit. Offer to help employees who haven't claimed their benefits yet take full advantage of the coverage they are paying for!

Additional Details

The Wellness Benefit Rider is available on a guaranteed issue basis at time of application.

The list of covered screening tests, which may vary by state, can be found on the Wellness Benefit Rider Consumer Flyer, by searching C8007 on our Agent Portal's Resource Library at [Agent.IllinoisMutual.com](https://www.agent.illinoismutual.com).

The Wellness Benefit Rider does not meet the Minimum Essential Coverage Requirements of the Affordable Care Act.

Your Worksite sales team can help you take advantage of this rider and the report!
